SUMMARY:

Highly motivated and results-oriented Software Developer with a robust background in .NET development and a history of enhancing user experiences at Tech Innovations. Skilled in C#, PHP, HTML, Kotlin, CSS, and JavaScript, I excel at building fully functional websites. Proficient in Agile methodologies, I thrive in fast-paced environments, improving project completion rates by over 30%. My collaborative spirit and commitment to excellence make me a valuable asset to dynamic development teams

RELEVANT PROJECTS:

Aquas Catering

Freelance Web Developer | 1 February - 16 April 2024

- Developed and launched a fully functional, user-responsive website using PHP, CSS, HTML, and JavaScript.
- Implemented Google Analytics to track website traffic and user behavior
- Deployed the website on a free hosting platform, demonstrating cost-effective solutions.
